GENERIC PUZZLES

- **Puzzle image:** The focus is the puzzle picture. The puzzle picture is clearly visible on the cover and sides of the packaging. Because of this, the picture is always visible regardless of how the package is presented.
- **Quality:** 'Made in Holland' as the stamp of approval for top-quality Jumbo Puzzles.
- **The new packaging design** is both modern and timeless.

The new puzzle images can be divided into different, recognisable categories:

Artist: Well-known artists (Rien Poortvliet, Francien van Westering, Dominic Davison) who have all earned a place in the Jumbo range.

Cities: City views reflecting images of the past and present for puzzling pleasure.

Holland: Royal Jumbo is a Dutch puzzle producer and therefore has its own special category of typically Dutch images. This includes windmills and tulips, as well as less well-known, typically Dutch scenes. You'd be amazed at the country's beauty!

Animals: Lots of beautiful images from the animal kingdom.

Colour fantasies: Creative fantasies reflecting loads of colour are the focus in this category.

Geography: This category will have you building puzzles of exceptional maps, mainly from years gone by. The pictures in this category were selected in cooperation with the University of Amsterdam (Special Collections department).

Landscapes: Incredible images of popular and less well-known holiday destinations.
